

Video Doorbell Installation Guide

What You Need

- Video doorbell (e.g., Ring, Eufy, Arlo)
- Drill and mounting screws
- WiFi network and smartphone app

Step-by-Step Instructions

- Charge or insert the doorbell battery.
- Mark drill holes at the desired mounting height.
- Drill pilot holes and mount the doorbell.
- Download and open the manufacturer's app.
- Connect the doorbell to WiFi and test video stream.
- Adjust motion detection zones if available.

Security Tips

- Enable 2FA and firmware updates.
- Set privacy zones in the app.
- Check for secure WiFi network settings.
